

Casting 'The NarcoSexuals'

Studio Dries Verhoeven is preparing a new work. 'The NarcoSexuals' explores the world of sexual drug use, a phenomenon that is gaining popularity, especially among gay men. The performance questions how it affects our ideas on intimacy, sexual freedom and togetherness. Are we headed towards a narco-sexual revolution? How does society cope with the maladjusted?

Casting on 16/17 January 2022 in Amsterdam

Dries is looking for energetic, physically uninhibited male dancers and performers. Specifically, we are looking for men who can make unusual and exceptional movements with their bodies.

We are looking for men who enjoy being naked in a performance context. In the casting and rehearsals we create a safe environment where everyone should feel comfortable. The sexual orientation of performers is not of importance, but an interest in the questions posed by the work is crucial. We hope to create a diverse cast, therefore we specifically encourage performers/dancers with an Asian background and other men of colour to respond.

In the show, performers will wear (coloured) contact lenses. Are you interested, but do you have dry eyes? Let us know!
