A live film performance directed by renowned Dutch artist Dries Verhoeven. Straight from the heart of the African film industry in Nollywood, Lagos, Kininso Concepts' incandescent performers enact European nightmares of refugees flooding into the continent as they directly address their European audiences via a live internet connection. Provocative, disruptive and inescapable, like the future itself. Watch this space for a review soon!

In theatres around the Netherlands- reservation is required. More information and tickets here (<https://driesverhoeven.com/en/project/dear-beloved-friend/>).
